The 3rd International Conference on Control, Instrumentation and Mechatronics Engineering will be held virtually online on 30-31 March 2022

This event will be recorded LIVE This event may be livestreamed

The main objective of CIM 2022 is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Control, Instrumentation and Mechatronics. This conference provides opportunities for the delegates to exchange new ideas and application experiences, to establish business or research relations and to find global partners for future collaboration.
